SIR AUCKLAND MEETS WILSON.

New British Ambassador Pre-
sents His Credentials.

Delivers King George's Mes-
sage to President.

Brings English Greetings to
the United States.

(BY A. P. DAY WIRE.)

WASHINGTON, May 26.—Sir
Auckland Geddes, the new British
Ambassador, formally presented his
credentials to President Wilson to-
day at the White House.

Sir Auckland had been waiting
since April 21 to be formally re-
ceived. His predecessor, Viscount
Grey, who came to Washington last
October, departed again without hav-
ing his credentials before the Presi-
dent.

Sir Auckland in addressing the
President said in part:

"His Majesty, your King, has in-
structed me to deliver to you this
letter and to say that it is his de-
sire that I should at the first pos-
sible moment renew to you, sir, his
assurances of the lively interest
which he takes in everything that
promotes the welfare and prosperity
of the United States of America."

"It is, I am confident, quite un-
necessary to say that I accept with
pleasure from your hands letters
whereby His Britannic Majesty ac-
credits you as his Ambassador ex-
traordinary and plenipotentiary to
the United States or that the gra-
tious words of His Majesty which
you interpret to me are warmly ap-
preciated. May I ask you to be so
good as to express to him my sin-
cere thanks for his kindly interest
and good wishes?"

"Thanking you, and through you,
those who were associated with you
in government for the kind and ap-
preciated messages which you de-
liver on your own and their behalf,
I am happy to accord you formal
recognition in your exalted char-
acter and trust that you will find
your sojourn among us most agree-
able."

**ANOTHER REASON FOR
UNREST IN COUNTRY.**

(BY A. P. DAY WIRE.)

WASHINGTON, May 26.—A
nation-wide shortage of houses is
the root of unrest in the country,
real estate dealers and building
trade operators today told the House
Ways and Means Committee, urging
that interest of \$40,000 or less of
real estate mortgages held by one
person be exempt from income tax.

Such exemption, they said, would
stimulate building activities, with-
out which rents would go higher.

Demerol Captured in Oregon.

(BY A. P. DAY WIRE.)

SAN FRANCISCO, May 26.—C. R.
Tolliver, military convict, who es-
caped from Alcatraz island prison
four months ago disguised as a wom-
an, was captured by the Vale (Or.)
police, yesterday, according to a re-
port to Capt. Johnson, prison offi-
cer. Tolliver passed out of the prison
unnoticed, and a gallant
officer assisted him on the boat from
the island.

INVESTIGATION RECOMMENDED.

Rebels Would Clarify Facts of
Carranza's Killing.

To Determine in What Way
Herrero was Implicated.

Fuillade of Bullets Entered
Fugitive's Hut.

(BY A. P. DAY WIRE.)

MEXICO CITY, May 26.—Formal
investigation for the purpose of
clarifying the part taken in the
death of President Carranza, both
by Col. Rodolfo Herrero and members
of the Carranza party, is recom-
mended by Gen. Obregon and Gen-
erals to inquire into the tragedy at
Tlaxcalantongo. The commission
submitted its report last night and
cited ten points which the members
had agreed had been proven from
stories of witnesses. It was added
that in a number of points many
other voices purporting to tell the
actual circumstances could not be
confirmed and were unworthy of
credence.

A summary of the commission's
report, which the first authorita-
tive story of the death of Carranza,
follows in part:

"Col. Herrero joined the Carranza
party at the State of Puebla, on
May 20, following a conference with
Gen. Francisco de M. Mariel, to
whom he surrendered last March.
Gen. Mariel then left the Carranza
party and did not go to Tlaxcalantongo.

SENTINELS PLACED.
"When Carranza reached Tlaxcalantongo
he was led by Herrero to the hut
where he was to sleep.
Before retiring Carranza or-
dered Capt. Cuevas to assist in plac-
ing sentinels all of whom were Her-
rero's men.

"Herrero later told Carranza that
a messenger had informed him that
his brother was injured, whereupon
Herrero left the village. At 3 o'clock
on the morning of May 21, three of
Herrero's men entered the Presi-
dent's hut, stating they had been or-
dered to report to him what the sit-
uation was, adding that nothing new
had occurred.

"The report says this move was
probably for the purpose of ascer-
taining if all in the hut were in bed
and whether Carranza had changed his
position.

"Half an hour later the hut was
attacked from all sides.
"President Carranza was heard to
cry, 'I can't get up; my leg is broken.'
He then begged for a carbine
so that he could defend himself but
was answered by a volley which
ended his life instantly.

GREAT CONFUSION.
"The other occupants of the hut
fled and there was great confusion
in the village. Herrero, at the head
of his men, captured many of the
party, who were taken twelve miles
away while others were left in Tlax-
calantongo. Four or five of these
prisoners were forced to sign a
statement by the Carranza com-
manded by Gen. Obregon.

The report recommends that a
formal investigation be held to
clear up the other points of the in-
cident which relate to the part
taken by Herrero's men and mem-
bers of the Carranza party. It
was signed by Roque Estrada and
Comodoro Hilario Rodriguez
named by Obregon, and Aquilino
Elorduy and Gen. Fortunato Zu-
sua, appointed by Gen. Gonzalez.

HERRERO FLEES.
The preamble to the report gives
as reasons for the recommendation
for an investigation the facts that
Herrero fled, that his evidence was
not available and that statements
made by Carranza's companions
conflicted in many particulars.

Gen. Nairn and Gen. Sanchez
both testified that Herrero told Gen.
Perez that the men he was looking
for were Luis Cabrera, Secretary
of the Treasury, Yencio Bonilla,
former Mexican Ambassador at
Washington, and Gen. Francisco
Murguilla and that unfortunately
Carranza fell.

Capt. Amador declared that when
Herrero liberated his prisoners he

KOLCHAK MURDERED BY PETTY OFFICER.

BRITON BRINGS DETAILS OF
KILLING OF ALL-RUSSIAN
COMMANDER.

(BY A. P. DAY WIRE.)

VICTORIA (B. C.) May 26.—(De-
layed in transmission.) Details of
the execution of Admiral Kolchak,
former head of the all-Russian gov-
ernment, brought here today,
showed that the admiral was killed
by a petty officer in a firing
squad refused to obey an order to
fire on him.

The details were brought by Capt.
Wallace Ian Webb, provost marshal
with the British forces and head of
the international military police in
Siberia. Capt. Webb was in Irkutsk
at the time Kolchak was killed.
Without trial, he said, Kolchak and
Premier Peppeloyoff of Irkutsk
were taken aboard and put before a
revolutionary firing squad.

Kolchak asked if he were to be
given trial and when informed in the
negative, he asked permission to
see Mrs. Kolchak, which request
was also refused.

"Give me a cigarette," he then
calmly asked, and with a steady
hand he lighted it, and faced the
squad, indifferently awaiting the
end.

Peppeloyoff, screaming for mercy,
attempted to run away, and was
shot down in his tracks. Kolchak,
smoking his cigarette calmly,
awaited the volley which would
drive him into eternity. A dramatic
scene followed. The order was
given to fire and the firing squad
refused to obey.

Kolchak continued to puff away
at his cigarette.
Informed of the refusal of the
firing party to obey, a commissary
strode forward, pushed Kolchak's
back, and blew his brains out
with a revolver.

**TWO REPORTS FILED ON
DISORDERS IN INDIA.**
ENGLISH AND NATIVE COM-
MISSIONERS FAIL TO AGREE ON
CERTAIN POINTS.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, May 26.—The findings
of the commission appointed by the
British government to investigate
the causes of the unrest in India,
with the attending disorders, were
made public yesterday. The inci-
dents investigated included the
Amritsar affair, in April, 1919, in
which a slaughter occurred when a
group of natives in the Jallianwalla
Bagh enclosure at Amritsar was fired
upon by troops commanded by Gen.
R. E. Dyer.

The commission submitted a ma-
jority report by the five English
members and a minority report by
the three Indian members.
An official summary of the two re-
ports given out by the British gov-
ernment said in part:

"With the exception of the Jhal-
lanwalla Bagh and certain minor in-
cidents, both the Indian and English
members generally agree in justifying
the firing done by the police and
the further action taken in exoner-
ating the government of India from
all blame.

"Regarding Amritsar, the English
members held that the outbreak was
antigovernment at every stage. The
Indian members think that the anti-
European sentiment developed sub-
sequent to the firing on April 10,
but do not dissent from the view
that the firing was necessary."

**WILL UNLOAD VAST
AMOUNT OF SUGAR.**
SIXTY-NINE CARS OF COMMOD-
ITY FOUND BY GOVERNMENT
IN CHICAGO YARDS.

(EXCLUSIVE DISPATCH.)

CHICAGO, May 26.—"We'll use
wheelbarrows if necessary to unload
these cars of sugar that are stored
away on spur tracks," was the ul-
timate delivered today by Special
Investigator Brennan, of the Depart-
ment of Justice, whose sleuths have
located sixty-two carloads of sugar,
brought in nearly a month ago
from New Orleans and which have
been shunted around the yards
while the price was soaring and the
city was facing a famine.

Twenty-four of the cars were
found on a spur track near the
Field Museum, practically in the
heart of the city, but so attempt
was made by the consignees to
unload them, although they were
spoiled Saturday.

Our investigation will continue
until every pound of sugar that
comes into the Chicago yards will
be traced to the direct consumer,"
said Mr. Brennan, who does not
propose to interfere with any indus-
try, but the consumer will be pro-
tected. Excuses advanced by the
consignees that they have been un-
able to unload these cars because
of the switchmen's strike and general
poor railroad service will have to
be substantiated.

On some of the cars the consign-
ment have been scratched so
that the names of the consignees
cannot be deciphered.

**NORFOLK, NEB., GROWTH
OVER TWO THOUSAND.**
(EXCLUSIVE DISPATCH.)

WASHINGTON, May 26.—Nor-
folk, Neb., has a population of
8434 an increase of 2609 or 45.3 per
cent, according to census figures re-
leased here today. Other towns are:
Miami, Fla., 29,549, increase 24-
078, or 40.1 per cent; increase 24-
078, or 40.1 per cent; increase 24-
078, or 40.1 per cent.

East St. Louis, Ill., 66,240, in-
crease 112, or 14 per cent.
Fulton, Mo., 5595, increase 367, or
7 per cent.

Send Home War Workers' Bodies.
(BY A. P. DAY WIRE.)

WASHINGTON, May 26.—Bodies
of Red Cross and other welfare
workers who died in France will
be returned on the same basis as
those of the soldier dead. It was
announced yesterday at the War
Department.

TWELVE STATES TO HONOR SONS.

Presidential Favorites to Re-
ceive First Ballot.

Democrats Tuning up Many
Nominating Speeches.

Vermont Republicans Declare
for Equal Suffrage.

(EXCLUSIVE DISPATCH.)

CHICAGO, May 26.—The victory
of Senator Sutherland over Gen.
Wood in the West Virginia primaries
makes it evident that twelve states
have decided to cast their initial
vote in the Republican National
Convention for favorite sons. These
twelve states have more than 400
ballots.

Only three of the "favorite sons"
are considered by political wisecracks
to be serious contenders, and their
chances ran in this order: Gov.
Lowden, Gen. Wood and Senator
Johnson. The states and the fa-
vorite sons they are supporting ap-
pear to be as follows:

Illinois, Frank O. Lowden, 57 dele-
gates; New Hampshire, Gen. Wood,
8; California, Senator Johnson, 26;
Ohio, Senator Harding, 19; Wash-
ington, Senator Polk, 14; North
Carolina, Judge J. C. Pritchard,
17; West Virginia, Senator Suther-
land, 10; New York, Nicholas M.
Butler, 8; Pennsylvania, Gov.
Spruiell or Senator Knox, 7; Mas-
sachusetts, Gov. Coolidge, 35; Kan-
sas, Gov. Allen, 20; Delaware, Sen-
ator Coleman Dupont, 6.

Of these states Illinois, New
Hampshire, California, Ohio, Wash-
ington, North Carolina and West
Virginia have given official instruc-
tions for their favorite sons. The
others mentioned have unrestricted
delegations but the leaders have
decided to espouse their favorite
sons at least on the first ballot.
There is a chance that the North
Carolina favorite son may be over-
thrown at the state primary, June 5.

The advance guard of Johnson
boomers arrived today from Califor-
nia, and promptly began to agitate
the air with their claims. Managers
for Nicholas Murray Butler will open
his headquarters here Monday, and
these headquarters will also be head-
quarters for the entire New York de-
legation.

Montana Gets Wilson Appointment.
(BY A. P. DAY WIRE.)

WASHINGTON, May 26.—George
O. E. Neill was nominated today by
President Wilson to be receiver of
public moneys at Helena, Mont., vice
Frank F. Steele, resigned.

SUNDRY CIVIL BILL PASSED.
Senate Sends it to Conference for Action.

Rivers and Harbors Bill Confers in Deadlock.

Naval Radios Authorized for Use by Public.

WASHINGTON, May 26. — The \$440,000,000 sundry civil appropriation bill, the last of the regular annual government supply bills, was passed by the Senate today and sent to conference.

The bill as passed carried an amendment giving Congress authority to determine what government publications shall be published, but authorizing those being issued to be continued until June 30, 1921.

Except that power to control government publications is vested in Congress instead of the President, the amendment is similar to that which resulted in the President recently vetoing the legislative appropriation bill.

The Senate also adopted without debate an amendment appropriating \$1,100,000 for the Bureau of Internal Revenue in guarding intoxicating liquors held in warehouses and for enforcing the National Prohibition Act. Another amendment authorizes the government to pay the railroad fare home from Washington of war workers who resign or are discharged from service, between now and July 1 next.

Other legislative riders added by the Senate included authority to extend use of the \$200,000,000 revolving fund of the Interstate Commerce Commission from five to fifteen years.

The Senate accepted an amendment by Senator Robinson, Democrat, Arkansas, appropriating \$225,000 for continuance of the Federal employment service.

Conferees on the rivers and har-

LOW WATER IN YUKON MAY DELAY SHIPPING.

SEATTLE, May 26. — Extremely low water is likely to prevent the opening of navigation on the Yukon River until about June 12, according to an announcement today by J. L. Burnside, general passenger agent of the White Pass and Yukon Railroad.

Not in more than twenty-five years, said Mr. Burnside, has the water been at such a low stage at this season.

Mikado Gives Millions for Roads.

SAN FRANCISCO, May 26. — The Emperor of Japan, Yoshihito, left today for his summer villa in Numazu, prefecture of Shizuoka, according to a Tokyo cable received today by the New York Japanese language newspaper here. Just prior to his departure the Emperor gave \$1,500,000 (\$2,000,000 yen) from his private fortune to a road building fund, the dispatch adds.

MORE FIGHTING BY SECRETARY.
Daniels Charges "Steam Roller" Methods by Committee.

Protests Question of Chairman Hale, Backed by Senator.

Official's Statement in 1917 is Debate Subject.

WASHINGTON, May 26. — Cross-examination of Secretary Daniels by the Senate Naval Investigating Committee was concluded today at a session marked by heated clashes between the naval secretary and Senator Pittman, Democrat of Nevada, on one hand, and Chairman Hale on the other. Rear Admiral Sims, whose charges against the Navy Department brought about the investigation, will take the stand in rebuttal tomorrow. Chairman Hale indicated the admiral would be the last witness, and that his statement would be brief.

"STEAM ROLLER" CHARGE.

In the course of a verbal tilt with Senator Hale, Secretary Daniels threatened to carry to the full Senate Naval Committee a protest against the chairman's conduct of the inquiry. "A steam roller" was being used on him and characterized as unfair and unjust and a stigma on the navy's long compilation of statistics, Chairman Hale sought to read into the record.

The tabulation, Senator Hale said, was compiled in his office from figures submitted by Mr. Daniels and related to the state of preparedness of the major ships of the navy just prior to the declaration of war by the United States. Mr. Daniels retorted that the chairman had misinterpreted the department's figures and that in the Hale compilation the dreadnought Arizona was listed as having been unfit to fight on Feb. 2, 1917.

"The Arizona unfit to fight?" Mr. Daniels went on. "It is laughable. I decline to answer any questions based on such a tabulation and denounce it as unfair, unjust and a stigma on the American Navy. I will carry my protest to the full Naval Affairs Committee if necessary."

ENTER INTO RECORD.

Chairman Hale said he would designate the columns marked "fit to fight" and "unfit to fight" and then put the compilation in the record. Secretary Daniels demanded that the Senator take the stand as a witness and take the oath before submitting evidence. This the chairman refused to do and Mr. Daniels then demanded that the person who made the compilation be sworn as a witness. Again he was overruled. Senator Pittman at this point protested against the tabulation going into the record and left the room after the chairman had announced he would not yield in his stand.

Secretary Daniels thereupon made a point of no quorum. Chairman Hale objected. He and Senator Haynes, Republican, New Hampshire, voted and the chairman announced that he was authorized to call the vote of the committee. The tabulation then went into the record without further words.

"The remainder of the session was devoted to a discussion of technical details of the Navy's co-operation in the war and a long debate between the chairman and the Secretary regarding the contribution of the North Sea mine barrage, an American project toward ending the submarine campaign. Mr. Daniels characterized the barrage the Navy's greatest contribution toward defeating the U-boat campaign, while Senator Hale sought to show that the project actually had little influence on ending the war."

METHODISTS IN FAVOR OF ARMENIA MANDATE.

GENERAL CONFERENCE PASSES RESOLUTION ENDORSING WILSON'S PROPOSAL.

DES MOINES, May 26. — A resolution favoring acceptance of a mandate over Armenia by the United States was passed today noon by the Methodist Episcopal General Conference.

After reciting the relief that has been given to Armenia, though Christian sources, the resolution continues:

"This general conference now welcomes, on the concrete proposal of the President, now under consideration of Congress, the opportunity to record its conviction that the American people and the American government can do no higher service to humanity than to promptly accept the mandate for Armenia and urge immediate and favorable action upon the recommendations of the President that America at once accept the responsibility, not only of relieving the needs of Armenia, but taking up with this martyr nation its intolerable burdens."

The resolution was introduced by Dr. Frank Mason, North of New York, and was sponsored by Dr. David G. Downey, book editor of the church. Dr. George Elliott, editor of the Methodist Review, and a number of others. The special committee on Mexico made its report, which was adopted after a portion referring to the internal troubles of that republic had been stricken out. The report calls upon the United States government to put a stop to traffic in vice and illegal sale of intoxicating liquor along the border, and to inaugurate such diplomatic procedure as will protect citizens of both countries from the evil effects of present practices.

The report of the committee on itinerancy recommended that all barriers be removed to permitting women to become lay preachers, and that a commission of seven be appointed to consider the advisability of ordaining women in the same manner as men. This was adopted after considerable debate. The commission which will be appointed under it will make its report at the general conference in 1924.

New System for X-Ray Operators.

PARIS, May 26. — Protection of operators of the x-ray apparatus of x-rays, has been secured by neutralizing ultraviolet rays with a simultaneous application of infra-red rays, according to Daniel Berthelot who yesterday announced that his colleague, Dr. Pech, had perfected this protective system.

Compare Your Gas Range With the ALLMUR ELECTRIC FIRELESS COOKER.

Your Gas Range

- 1—Costs more labor, time and money than it should.
- 2—Wastes food and nutrition by evaporation.
- 3—Wastes heat.
- 4—Must be watched every minute to cook.
- 5—Will burn food unless carefully watched.
- 6—Will dry up food if guests are delayed.
- 7—Apt to damage home by accidental explosion.
- 8—Apt to injure members of family by dangerous flames.
- 9—Made of material which rusts and corrodes.
- 10—Not a healthful and sanitary stove.

The Allmur

- 1—Saves labor, money and time.
- 2—Saves all nutrients—food is cooked in its own juices—no evaporation.
- 3—Concentrates all heat to the food.
- 4—Needs no attention till time to serve.
- 5—Can't burn food. Automatic cut-off turns off current at proper time.
- 6—Food can be left for hours. Won't dry up.
- 7—Absolutely safe and fireproof.
- 8—Perfectly safe. When cover is open current can't be turned on.
- 9—Made of aluminum, which will not rust.
- 10—Is healthful and sanitary. No fumes or disagreeable odor.

Thoroughly cooked, delightfully palatable food is the result of ALLMUR cookery. Nothing so efficient, so everlastingly convenient, that means so much to the housewife, since the advent of the sewing machine. We will be glad to show and demonstrate the ALLMUR at any time.

Single Compartment \$3.50 Month.
Double Compartment \$6.00 Month.

The Times

THURSDAY MORNING, MAY 27, 1920.—PART II: 14 PAGES.

POPULATION 1,225,000

OFFICIAL BATTLE
Navy and army officials are engaged in a battle of wits over the proposed Pacific program. The navy is determined to have a strong Pacific fleet, while the army is more concerned with the defense of the continent. The battle is being fought in the corridors of the War Department and the Navy Department.

CONFERENCE TAKEN
The Pacific conference is being held in a spirit of compromise. The delegates from the various nations are working hard to reach an agreement on the proposed Pacific program. The conference is expected to continue for several more days.

WON'T GET "SUB"
The navy is determined to get a submarine. The navy is planning to build a new submarine, which will be the largest and most powerful ever built. The navy is confident that it will be able to build the submarine in time for the Pacific conference.

FLOWERS JURY IS STILL OUT.

Hope to Reach Verdict Today in Case of Editor Accused of Syndicalism.

After nearly forty hours of deliberation, less the minimum required for eating and sleeping, the jury in the case of Sydney Flowers, editor of the *Dougout*, was locked up again last night. After asking for further instruction on certain points, Foreman J. E. Parrish, informed Judge Valentine that they expect to reach a verdict this morning. The members of the panel, of which six are women, have been out since Tuesday noon. The first Flowers trial resulted in a disagreement. The present case has occupied nearly a month.

TWO ARE SHOT IN DRUG HUNT.

Chinaman and Federal Agent Battle with Revolvers.

Suspected "Peddler" may Die; Officer's Hurts Slight.

Bullets Fly When Arrest is Made in Taxi Downtown.

In a revolver battle at Sunset Boulevard and Hill street early last night, A. B. Mendosa, 4711 San Carlos street, an operative for the Internal Revenue Department, shot and perhaps fatally wounded Louie Cook, declared by Federal officers to be a drug peddler, and was wounded himself. The agent was at the time trying to arrest the Chinese, who he says had just sold him an ounce of cocaine.

NO PARKING ON EAST SEVENTH.

City Council Extends Line of Congested District to Maple Avenue.

East Seventh street, from Los Angeles street, to Maple avenue was yesterday added by the Council to the congested district, inside of which forty-five-minute parking of vehicles is permitted until 4 p.m., and no parking is allowed from that hour until 5:15 p.m. The Council also amended the traffic ordinance prohibiting parking of vehicles on the north side of Temple street, between Spring and New High streets, and on Court street, from Spring street to Broadway. The parking of vehicles is also prohibited in front of branch post-offices excepting those located in department stores. The Council rejected the proposal of the Public Utilities Board that the so-called "business district" lying outside of and adjacent to the congested district, and inside of which two-hour parking is permitted, be abolished.

BIG LAND DEAL FOR GOLF AREA.

California Hotel Buys Two Hundred-Acre Course.

Transaction Involves Over Quarter of Million.

Pico Boulevard Site to be West's Best Links.

Through the purchase yesterday of 187 acres on Pico Boulevard, opposite the old Wolfkill ranch and adjoining the new Speedway, arrangements were completed for a new golf course which will be one of the finest in the West. The deal involves over \$250,000. It was closed by Henry W. O'Melveny, representing S. W. Strauss of the Ambassador Hotel Corporation. The land was bought from the Burbank Investment Company on the basis of \$1200 an acre. A. M. Bonnell of W. W. Mines & Co. closed the deal.

Bourbon Hope Sidesteps Politics.

Mr. and Mrs. William G. McAdoo, snapped yesterday in the yard of their bungalow at the Maryland Hotel.

CLIMATE ALONE LURES McADOO.

Former Head of Treasury at Pasadena on Vacation.

Will not Discuss Politics; Evades All Quizzing.

Smiles at Slush Fund Talk of Senator Reed.

"I am in California purely on a vacation, and have not a word to say about either politics or economics."

No spoke William Gibbs McAdoo, former Secretary of the Treasury, yesterday afternoon a few minutes after his arrival at the Maryland Hotel, Pasadena, with Mrs. McAdoo from the East. The former treasury head, who stands today on the eve of the Democratic National Convention as one of the most prominent of the undeclared Democratic Presidential candidates, proceeded to make good his declaration of silence on current national issues by good-humoredly turning aside several pointed political queries and saying that he has more interest just now in the quality of California weather.

ARMED BATTLE
Navy and army officials are engaged in a battle of wits over the proposed Pacific program. The navy is determined to have a strong Pacific fleet, while the army is more concerned with the defense of the continent. The battle is being fought in the corridors of the War Department and the Navy Department.

CONFERENCE TAKEN
The Pacific conference is being held in a spirit of compromise. The delegates from the various nations are working hard to reach an agreement on the proposed Pacific program. The conference is expected to continue for several more days.

WON'T GET "SUB"
The navy is determined to get a submarine. The navy is planning to build a new submarine, which will be the largest and most powerful ever built. The navy is confident that it will be able to build the submarine in time for the Pacific conference.

DANIELS ACTIVE.

Secretary of the Navy Daniels in a telegram received yesterday by Mayor Snyder declared that he is "leaving no stone unturned" to convince the Congressional Naval Conference Committee that it should report in favor of locating a submarine base at Los Angeles Harbor. The submarine base as planned will cost \$5,000,000 and an immediate appropriation of \$500,000 is now being considered by Congress.

HIT BY TROLLEY CAR.

Aged Doctor Probably Fatally Hurt at Santa Monica.

Dr. A. K. Smith, aged 70 years, was struck by a Pacific Electric car at the Hill-street crossing of Trolley Way in Santa Monica last night and probably fatally injured. He was taken to Loamans Hospital, where it was found that he had suffered a basal fracture of the skull, a broken collar bone and internal injuries. Physicians pronounced his condition critical.

HOUSE INDIAN AFFAIRS COMMITTEEMEN HERE.

Members of the Congressional Indian Affairs Committee, on a tour of the reservations throughout the country, arrived here last night after meeting at Riverside with a committee of twelve chiefs representing forty tribes. The Congressmen will inspect the reclamation office and be the guests of the Chamber of Commerce here today and will leave at 3 p.m. to continue their tour in the private car, Palm Beach.

BANNINGS SELL OUT HARBOR BUSINESS.

Supremacy of Famous Concern Now Owner of PORT ACTIVITIES.

The Banning Company's business at Los Angeles Harbor has been disposed of to Edward Maher, superintendent of the concern for thirty-five years. He started with the Banning company as a boy and remained in their service continuously until ownership of the business passed into his hands yesterday.

BLAZING AIRPLANE IS FEATURE OF FESTIVAL.

DAVID THOMPSON THRILLS MANY AT HOLLYWOOD; PARADE OF TRUCKS TODAY.

David Thompson, an aviator from the Mercury Aviation Field, was the attraction last night at the Hollywood May festival. One of the most thrilling and spectacular flying exhibitions ever seen in this city was staged for the benefit of those who attended. With his airplane a blaze of electric lights and with red fire shooting from all parts of his machine, the aviator performed a number of thrilling dips and somersaults, 1000 feet in the air.

NEW TRACTOR PLANT HERE.

Subsidiary of General Motors Buys Block on Figueroa; to Build at Once.

The General Motors Corporation closed a deal yesterday through its subsidiary, the Samson Tractor Company of California, for 340 feet frontage on Figueroa street from Twenty-seventh to Twenty-eighth streets, including the entire block, on which there is to be erected immediately a building to cost approximately \$250,000. The contract was signed for this with the Winters Construction Company.

DR. SHIELDS COMING.

Dr. Albert J. Shields, formerly superintendent of the Los Angeles school system, is expected to arrive here next week for an extended visit. Dr. Shields has been in New York for several months in charge of the Americanization work being conducted there. Mrs. Shields will accompany the doctor here.

CARTER GETS OUT.

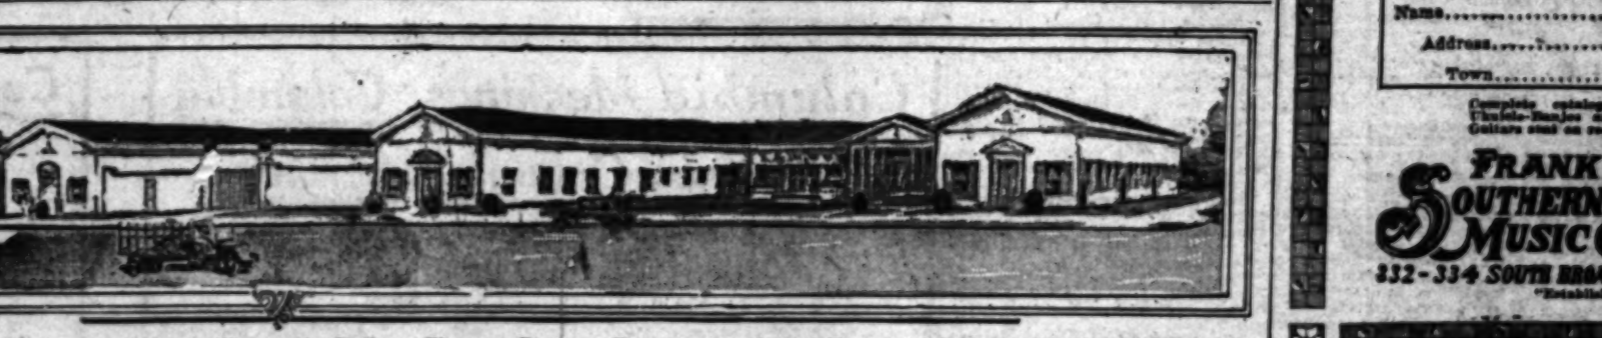

Charles F. Carter, who was lodged in the County Jail Monday on a charge of violating the Mann White Slave Act, was released yesterday by U. S. Commissioner Long. Carter was released on \$2500 in the amount of bail.

DR. SHIELDS COMING.

Dr. Albert J. Shields, formerly superintendent of the Los Angeles school system, is expected to arrive here next week for an extended visit. Dr. Shields has been in New York for several months in charge of the Americanization work being conducted there. Mrs. Shields will accompany the doctor here.

Samson Tractor Company Plant to be Built on Figueroa Between Twenty-seventh and Twenty-eighth. G. D. Morrow, Architect.

The People and Their Daily Troubles

OUR MYSTERIOUS SELVES

BY JANE DEON.

Are we born to fame? Do we achieve fame? Is fame thrust upon us? Not long ago at a gathering in the home of a friend a man set down at the piano and began to improvise. His music was fantastic. It seemed to come from the heart and flowed rhythmically through the veins.

"However can you do it?" some one queried.

The man shook his head negatively. "I don't know," he replied, "but I can play anything I hear, though even to difficult classics. Funny, isn't it? Nothing new about such a feat. You, too, have met the man of his ilk. He was brought into the picture merely to show how the picture of fame and its forebears came about."

"We are talking," one of the company remarked, "music is born in us."

Either we have it or we don't. It is thrust upon us there is no use in running after it and trying to coax it to come to us. After years of study, who can't hum a tune without hitting every line five times, might be able to be a world wonder so far as execution of notes is concerned. But it would not be music. It would be mechanics.

I wondered.

In fact, I wondered so much I decided to seek six of the world's truly great artists, or more if necessary, to get their convictions on the subject.

Is art an inheritance? Is it a birthright, showered upon us from the cornucopia of fate at the moment of our entrance into this life? How much of fame born of art do we owe to heritage and how much to cultivation?

I went first to Miss Geraldine Farrar, that brilliantly blazing young star of the present day opera constellation. The voice of Farrar has carried her from a modest home in Boston, Mass., through Europe's courts of empire and song, to land her firmly on the pedestal of highest favor in the hearts of her own music-loving America.

"When Farrar sings," says the two-office man, "they stand on each other's feet." His "they" refers to that admiring and loyal public which never seems to hear enough of the carolings of its favorite songbird.

I found Miss Farrar in her dressing-room at the Metropolitan Opera. She had just finished singing her compelling conception of "Madame Butterfly." It had been one of her golden nights. Waves of enthusiastic friends surged toward her room, their spirit buoyant with the song the maid of Japan had poured across the footlights, their tongues eager to shower congratulations and good wishes.

Miss Farrar received graciously. She wore the bright scarlet kimono of the finale. There had been no time to remove her makeup. Her room was gay with banks of spring flowers, fragrant offerings on the altar of song. And close by her side, the most admiring and enthusiastic of all those crowds, the singer's talented young actor husband, Mr. Lou Tellegen. It is with Mr. Tellegen she has experienced one of those delightful romances only met between the pages of a book or in the lives of great artists.

"How much of your success," I asked, "do you attribute to an accident of birth? How much of it have you won by hard work? And which, if either, holds the greater balance of power?"

Miss Farrar thought deeply for a moment. This happens to be a problem which has interested her way.

My New England ancestors have contributed to my success in other ways, though," confessed the soprano. "I owe much to their background of sound common sense, of hardiness and plain, honest living. Their influence has kept me from stumbling into pitfalls such as have proved the destruction of many a budding genius—fevers of temperament, loss of mental balance, overmuch quaffing of the wine of success.

"There was a Spanish branch of our family—a branch which went out and expressed itself in a wild, gay sort of way. There was an Irish branch, too—the strain to contribute imagination and daring and dreams. If there is anything supernatural about the gift of song, must have inherited it from my Irish ancestors.

"But over it all, enmeshed and interwoven, was the solidity and sound sense of New England. Here is one heritage for which I have never ceased being grateful. As for fame—success—song, I should say it is pretty much half and half on the balance sheet of life—half gift and half work."

Geraldine of the ringing silver voice and the dazzling personality looked toward her gallant young husband for confirmation. He smiled his approval. She seemed content.

The gifted daughter of "Mad" Farrar, professional baseball player and prince of good fellows, has more than justified the hopes and ambitions of the parents who lavished upon her all their love, together with the priceless heritage of the rarest singing voice.

QUESTIONS ANSWERED

Question: Please give the history of the phrase "Grand Old Party?"

Answer: The term "Grand Old Party" was applied to Mr. Gladstone in 1885, and is accredited to John Bright, who used it in a speech made in that year in Northampton, Eng. In America the phrase was appropriated and changed by members of the Republican party, who affectionately called it the "Grand Old Party." This at once became a newspaper slogan and in the headlines alluding to the party was shortened into "G. O. P."

Q: What Vice-Presidents died in office?

A: The men who died while holding this office were George Clinton, John Calhoun, William R. King, Henry Wilson, T. A. Hendricks, Garret A. Hobart and James I. Sherman.

Q: What has been the highest price paid for hops?

A: O. L. The highest price was reached in August, 1919, when hops brought \$19.46 per hundred pounds.

Q: How much coal is consumed every day in the United States?

A: It is estimated that our daily consumption of coal amounts to 1,600,000 tons. This would fill about 80,000 coal cars and would reach 240 miles on a single railroad track.

Q: How can worms for fishing be kept through the dry season?

A: Night crawlers and worms may be kept in a wooden box filled with soil. The box should be placed in a cool dark place. The soil should be kept moist, though not in a muddy condition. Cornmeal will do as food, though these worms will live several weeks without being fed.

Q: What is the meaning of the symbol worn by officers in the Medical Corps of the army?

A: The caduceus, the emblem of the Medical Corps of the United States Army, is a winged rod entwined by two snakes. Of these symbols, the rod signifies power, the serpents wisdom and the wings diligence and activity. In the times of Greek mythology this was the symbol of Mercury.

LETTERS TO "THE TIMES."

Let Us Have Truth.

LOS ANGELES, May 16.—(To the Editor of The Times:) The Prohibition party leaders went after Mr. Blight of the People's Church for his bold and unreasonable statements in regard to the liquor traffic and one would think that we had had enough bad odor from that decaying monstrosity without stirring it up more. The men who went after the reverent gentlemen showed they were on the job and no evil abuse

is going to be brought forth while they can wait the time of the sword. And it is a moving picture of the National Automobile Chamber of Commerce is the most common. According to this the horse power is equal to the square of the diameter of the cylinder times the number of cylinders divided by two and one-half.

Q: The nominal horse power of an engine is determined by an approximate formula of which that of the National Automobile Chamber of Commerce is the most common. According to this the horse power is equal to the square of the diameter of the cylinder times the number of cylinders divided by two and one-half.

Q: How is the horse power of an automobile engine measured?

A: The nominal horse power of an engine is determined by an approximate formula of which that of the National Automobile Chamber of Commerce is the most common. According to this the horse power is equal to the square of the diameter of the cylinder times the number of cylinders divided by two and one-half.

GASOLINE ALLEY—A DOLLAR DOWN.

Disinfect Regularly Prevent Contagious Disease

Only by regular disinfection can you successfully fight the deadly invisible disease germs that continually assail your health. Carelessness and indifference to the existence of germ life invite contagious diseases.

Attention to sanitation and cleanliness makes impossible the creation and spread of disease germs.

Lysol Disinfectant at the moment of application kills all germ life, or prevents its creation. At the office: Order Lysol Disinfectant used regularly in corridors, toilet-rooms, dark corners, on floors, rugs and all surfaces.

In the home: Have a solution of Lysol Disinfectant sprinkled regularly in sinks, drains, toilets, garbage cans.

A 50c bottle makes five gallons of powerful disinfectant; a 25c bottle makes two gallons.

Remember, there is but one genuine Lysol Disinfectant—made, bottled, signed, and sealed by Lehn & Fink, Inc.

Lysol Toilet Soap 25c a Cake Lysol Shaving Cream In Tubes

Contains the necessary proportion of the antiseptic ingredients of Lysol Disinfectant to give the skin from germ infection. It is refreshing, moistening, lathering and helps in the shaving process. Ask your dealer. If he hasn't it, ask him to order it for you.

Contains the necessary proportion of the antiseptic ingredients of Lysol Disinfectant to give the skin from germ infection. It is refreshing, moistening, lathering and helps in the shaving process. Ask your dealer. If he hasn't it, ask him to order it for you.

during the major portion of her splendidly successful career.

"I have wondered so many times just what it is," she ruminates, "this amazing something which carries us to the heights. Certainly, it is a force far beyond ourselves. The sudden sob, the tear that comes unbidden, the transcendent joy that grips us and comes to us like a feather in a breeze.

"There may be something supernatural about a great talent. It has been explained through the theory of reincarnation, and I confess I have given ear to this latter explanation.

"Take my own case, for example. I sang before I was out of pinafores. When I was 13 years old I made my first appearance in concert. My debut took place in my home town, Boston. No one could doubt but at such an early age my voice was a gift of nature. The fact was so evident that at 18 I was sent abroad to study. I spent three years of grinding, searing work. My teachers decided my progress justified my real debut. I was 18 when I stepped out on the radiant stage of the Berlin opera, confident I could sing my way into the hearts of the most critical of all musical audiences.

"I won approval, conditionally. The verdict was, I gave promise, but there was much to be done—a long and tortuous road of travel ahead. Later Paris seconded the approval of Berlin. America joined the chorus. I arrived. But there are times, even today, when I wonder how it all came about.

"This much I am able to say with certainty—my voice is a gift. But the gift alone is worthless. Neglected, ignored, it must inevitably burn down and flicker out. There must be cultivation. Without cultivation, tender, nurturing, guarding, the seed of it must have dried and died, or grown into a weedy, worthless, fruitless plant.

"There must be a complete fusion of native talent and effort to bring bud to flower, flower to fruition. I have worked ceaselessly since I was 18.

"Always hopeful, never discouraged," I asked.

"Buttery" sighed—and smiled.

"Often discouraged," she said.

"There are times right now when I feel completely at sea. I believe a certain amount of discouragement is good for us. It keeps us from coming too snug. The dark hour must only be occasional, however. It must not be permanent. On the contrary, I love it, thrive on it. I am healthier and happier when I work than at any other time."

"Have there been other musicians—singers in your family?" I questioned, seeking an explanation of the gift.

"We have been musical, yes, but in an aimless, nondescript sort of way."

You can dance to the very last note

With the Columbia Grafonola you can dance to the last lingering note and stop. The Non Set Automatic Stop takes care of that. This exclusive Columbia feature is at its best for dancing. There's nothing to move or set or measure. Just start the Grafonola and it plays and stops itself.

With the Only Non Set Automatic Stop

This long-wanted improvement is now a part of the new Columbia Grafonola. Built right into the motor. Invisible. Automatic. Operates on any record, long or short.

No other phonograph has it. All other stops must be set by hand for every record. No other phonograph can get it. Basic patents protect the Columbia Non Set Automatic Stop.

It is the last touch of convenience added to the Columbia Grafonola's recognized leadership in beauty of design, richness of tone, and reliability of mechanism.

Ask the nearest Columbia dealer for a demonstration of the stop that needs no setting.

Standard Models up to \$300—Period Designs up to \$2100

JOINS WOODS FORCES.
Soloist at the Lyric Club Concert.

MABEL NORMAND LEAVES GOLDWYN TO APPEAR IN PLAY.

By Grace Kingsley.

A bomb was dropped into the midst of filmland yesterday when it became known that Mabel Normand, Goldwyn star, had cut short her contract with that company, and had signed up with Al H. Woods, theatrical producer, to go on the stage and also to play in Woods films.

Details regarding the new affiliation were not forthcoming last night, but it is likely that Miss Normand, who made her debut in theatricals on the speaking stage, will be assigned the leading part in one of those farces for which Mr. Woods is famous.

The producer, it will be remembered, recently launched "The Bara" picture star, into theatricals, and it seems that he has decided that as a comedienne, Miss Normand cannot be beaten, and therefore she should be starred in some one of his famous stage plays.

You just can't keep a bright star down. News reaches us from New York that Jewel Carmen, former film star, is about to return to the screen. Miss Carmen is to be featured by the Irroquois Film Corporation, and will be seen in "Road to West" productions. Her studio has been secured for the first feature, and work has started on the "Western" which will be the producer of "The Unknown Purpura."

Brunton's First.
Robert Brunton is getting ready to launch his first big production, "The Devil to Pay," with Ernest Ward directing. Jack Cunningham is working on the continuity and the cast includes Robert McKim, Fritz Brunette, Roy Stewart, George Fisher, Joseph Dowling and others.

Tourneur Bulletin.
Working on the final scenes of his last production under the Paramount-Artcraft contract is what Maurice Tourneur is doing these days. Within a fortnight Mr. Tourneur expects to start his picture for the Associated Producers. "Deep Waters" is the name of his present film, and the name may be taken literally, inasmuch as it deals in large part with underwater stuff.

his first Associate Producer picture, Mr. Tourneur will tell you anything in the world you ask except its name and nature. "These are so good that he's afraid they'll be stolen by some marauding director. However, he will admit that it is from a well-known work of fiction.

Mr. Tourneur will make this one his production and perhaps another for the present. Then he expects to go on a trip to widely-separated spots of the earth; in fact, he expects to visit England, France and then Northern Africa. He won't produce any pictures there, he says, but will merely absorb atmosphere and write. He expects to return home plumb full of ideas and inspiration. Tourneur does not intend to make a picture in three or four productions a year, but into these will go the very best which this famous director can give.

Smart Comedy.
Appearing with Olive Thomas in her current picture, being directed by Larry Trimble, is Mr. Trimble's trained German, Lucky. Lucky is a very clever dog, and yesterday traced a stick all around Brunton studio. Also he was given the use of a bottle of Allan Dwan's set, and Mr. Dwan hurried home to move his private supply into a bomb-and-bum-proof cellar.

One On Wallace Field.
Here is the latest story on Wallace Field: The handsome Wally, it seems, was at one of the beach cafes the other night, and a lot of lovely young women there tried to flirt with him, but he would not. "We know you," said one of them finally. "Sure you know me," said Wally, swelling up. "Sure we know you," answered the saucy dame, "you're Carl Laemmle!"

Doug and Mary Leave.
Douglas Fairbanks, Mary Pickford, Lottie Pickford Rupp and baby Mary Rupp left yesterday morning for Arizona. From Arizona the party will go to New York, where Miss Pickford expects to shop for plays. She will return here and make one more feature before leaving for Europe.

Fort Telling.
Winifred A. Sheehan, general manager of Fox Film Corporation, who returned last week to New York from Europe, will leave the southern metropolis for this city immediately after the convention of Fox representatives from all over the world, now in progress in New York. It is believed that Mr. Fox will accompany Mr. Sheehan and that the Fox studios and the policies in the West will be reorganized during the stay of the officials.

Parson Fish Story 999.
That indefatigable fisherman, Dustin Farnum, is going in for a do-or-die campaign for the blue button at Catalina this year. Being a good fisherman, Farnum has an alibi as to why he didn't get it last year. It seems that all nature was against him, and even Dusty couldn't beat that competition, of course.

"I had been fighting a tuna for two hours," said Farnum. "It was that day, you will remember, when scientists proclaimed that there was an earthquake under the ocean. Well, as I was saying, I was about to haul in my blue-button tuna when I saw a big mountain-like

Waves coming down upon the boat, and in the excitement, I had to let the fish go.

"But you had another chance next day," exclaimed Ernest Ward. "Why didn't you get him then?"

"Too tired out," answered Dusty. "I slept on the boat and the flying fish kept me awake all night, skimming across my face."

Doesn't Like One-Nighters.
Violet Heming, who is starring in "Three Faces East," at the Mason House, has a brand new play for next year. She will do it in New York, and having the name and what it's about, Miss Heming will give you any information you desire.

The young actress declares she is spoiled by the long New York run of the piece, and that she really doesn't care about one-night stands. Taft, the city of this state, was one of her pet abhorrences.

the worst of it was, when the show, did so in their shirt sleeves and hunched and nobody seemed to know what it was all about. But she was over, the ushers found a lot of people asleep in the back of the house.

"Who are they?" I asked. They certainly did enjoy our show! One of 'em woke up and explained.

"W. W. m.," he said. "We only saw the end of the piece. We ain't real patrons of the house. There's a big well coming in tomorrow, the hotel is full, and the owner just as sleep here, that's all. Wish you folks' hurry up and get out 'cause them front seats are easier to sleep on than these here back ones."

New Universal Contract.
Arriving in town today from New York, if all goes well, will be Eric Von Stroheim, Universal director. Mr. Von Stroheim bears a new contract in his breast pocket. Carl Laemmle having consented to tear up the old scrap of paper, and give him a more advantageous agreement.

Irvin Cobb—Metro Note.
The first Irvin S. Cobb story which Metro will do will be "The Five Dollar Baby." It will be an all-star production. Sarah Mason is preparing the script.

May Allison Buys.
May Allison, Metro star, isn't getting bit of herself to herself for meditation, these days. Just as soon as she has finished work on her current picture, "Held in Trust," she is going to begin filming "The Waffie Iron."

Helen Eddy, Author.
Some people do just draw more than their fair share of brains. Take Helen Jerome Eddy. While we know she was a clever actress, never did it occur to us that Miss Eddy had also a genius for writing. But it seems she has, and she's been holding out on us.

She didn't say anything about it until it was all over, but it seems Miss Eddy has a brain child, a novel on which she has been working three years, and which even now is in the hands of the printer.

Florence Deshon, Too!
And as though this were not enough, comes now Florence Deshon, who has sharpened up her lead pencil and gone in for the writing of scenarios. No foolish comedies or mellers for Miss Deshon, either. Even if she is one of those lovely blondes, popularly supposed to be frivolous, Miss Deshon's literary labors are confined to the writing of picture stories dealing with famous women. Her first one will be the life of Mrs. Josephine.

Miss Deshon herself is to appear in the series, which will consist of six stories; and being a versatile young actress, she will essay roles all the way from the Versailles Josephine to Cleopatra.

ASKS REPRESENTATION.
The South Park Improvement Association in a letter received by the Council yesterday signed by Mrs. Ralph V. Cram, secretary, asks to have a representative placed on the City Planning Commission.

WOMEN'S WORK. WOMEN'S CLUBS.
BY MYRA NYE.

The Wa-Wan Club.
As a climax to a series of fine programs given through the club year in the ballroom of the Alexandria, the Wa-Wan Club yesterday afternoon presented a group of artists in the last affair of the year.

Guests of honor were members of the Symphony Orchestra and the Los Angeles Oratorio Society, many of whom were presented personally to the club and spoke. Mrs. William Maybelle, the 79-elected president, introduced the artists.

Mrs. W. H. Anderson, one of the vice-presidents and also chairman of drama, gave a preview of the midsummer pageant which is to be given by the club June 11, in the gardens of the Los Angeles Bungalow on West Adams street.

Mrs. W. J. O'Donnell interpreted Don Marquis's Hornet, the story which is "rightfully psychic," taking up every new cult, and fad as it comes along.

Miss Lucia Larria, harpist with the Symphony Orchestra, played with grace and skill, "Autumn" by Thomas, the Sixtette from "Louis and the Asolian Harp" by Goff.

The group of songs by Miss Fanny Holt conveyed the impression that her forte was the dramatic soprano, as in "Hymne au Soleil," until she sang the delightful "French encore, 'Neige! It Snows.' She was accompanied at the piano, by Mrs. Clifford Clark.

Mrs. Edith Lillian Clark opened the program with two piano solos played with the technique and mastery of a fine instructor.

This club demonstrated the growth of musical expression in Los Angeles. The success of 123 members indicates its success during the year.

Ruskin Art Club.
In keeping with its origin and purpose, the Ruskin Art Club, the oldest women's club in the city, held its 11th meeting yesterday at the last meeting for the club season. The nucleus for a memorial archaeological library, the memorial to the Southwest Museum, nearly fifty volumes, some of them rare, are to be placed in the museum.

With Mrs. Samuel Skowron presiding, the plan of the memorial was sympathetically presented by Mrs. Hendrick. A talk on Caesario Slovacka was given by Mrs. Clara W. Winslow, author and lecturer, a native of that country who has married an American.

Pomona Ethel.
Mrs. Sidney Thomas Exley, president of the Los Angeles District Federation, will be the honor guest and one of the speakers at the annual club luncheon for Pomona Ethel in the clubhouse tomorrow, responding to the toast, "Club, Past, Present and Future." The proceeds of the luncheon will be entirely for the benefit of the social service fund which the club is raising now for its charity work in the fall.

In the afternoon the members of the club will be entertained with an organ recital by Dr. Ray Hastings of Los Angeles. Mrs. Plana, a native of California who has resided for the last six years in Italy, where for the last six years she has achieved marked success with her voice, will sing.

Pomona Ethel is to be the hostess club next year for the district convention.

GUILTY OF ASSAULT ON BLIND PATIENT.
John Dickson, 55 years of age, formerly an orderly at the County Hospital, was found guilty in Police Judge Chesbro's court late yesterday afternoon of battery on the person of George Long, 75 years old, a blind inmate of the County Hospital. He was sentenced by Judge Chesbro to fifteen days in the City Jail.

According to the testimony in the case which was given in the County Hospital yesterday morning after Judge Chesbro had moved his court to the institution, Dickson attacked the aged patient several weeks ago when he became enraged because of an extra detail he had been given by the hospital nurse. Several inmates of the hospital gave their testimony from their cots.

Before the court found him guilty Dickson stated that he dropped the aged man to the floor of the hospital while attempting to move him from his bed to a wheel chair, but denied having struck any blows. He stated that the entire affair was an accident.

SWING HAP HOGAN RALLY.

Tigers Biff Baseball Hard in Eighth and Beat Angels in Ninth.

BY HARRY A. WILLIAMS.

Both teams dealt out the great national pastime in large chunks, but the Tigers were able to throw in more mass formations near the finish, and evened up the series, 3 to 2.

Red Killefer was greatly slated at times, while Bill Buck was even to suffer a number of striking spins. But at the finish it was Bill who was showing the chant of victory, while Red's golden dome was bowed in sorrow as he called for the spectators and angels.

TOUGH TO LOSE.
It was a hard game to win, and a tough one to lose. Both clubs at different times came from behind, sometimes leading the count and at other times going out in front.

At one stage of the game, the Angels were leading 3 to 2, but they could hardly see the Tigers without the aid of a field glass. They had placed a 3 to 2 lead in the seventh, but the Tigers had a plan. One inning later Hap Hogan had blasted Red's hopes with a long bang by hitting a triple off Ray Killefer with the bases loaded. Then the angels swung into the ninth, but the Tigers were too quick for them, and drew an ace to the pair of sizes.

NEVER RECOVER.
However, the Angels in general, and Killefer in particular, never did recover from the shock of this blow. May was knocked out in the final round, and the Angels took a few on the chin in the closing moments of play. Three runs in the ninth turned a losing battle into a distant Vernon victory. The Angels were unable to start anything with Vern Williams, Mitchell, who finished up what one of Red's pitchers had started and another had continued for several innings.

Pitchers were plentiful, being quoted at \$2.50 live weight. Wheeler, the pre-final ace, and Solomon Hill, the pre-final ace, started out to pitch a shut, but both were out of time with the batter. After being bumped for two runs, Bill was gracefully laid down the rear chute while the Angels were still hitting for him. This is less embarrassing to a pitcher than to be given the rear chutney.

It was here that Killefer stuck to his car.

DELL GETS HIT.
Dell received his in the sixth, when the Angels went out in front. This was a keen surprise for

Wheeler, who had expected that a fatted calf would be barbecued in honor of his return. Instead, they allowed the fatted calf to escape and took it out of Wheeler. Wheeler, in other words, played the double role of a prodigal son and fatted calf.

Bill Buck then unveiled a tall, small, and then right-hander with a shimmy in every joint. If every move he makes was a different kind of move, he could hit himself out of a job. The batter never was able to tell whether Walter was winding himself up for a new tactic, getting ready to fly away with his arms or merely intending to throw the ball.

ANGELS EDIFIED.
The Angels were both edified and entertained by his pitching, and whammed him for two in the seventh. But in the eighth he got to putting more stuff behind them. Smallwood's every little move may have a meaning all its own, but if so it will take some time to decipher them. The moved may have to be sorted out and labeled, and studied at leisure. The dissecting of the new pitcher will take quite a spell.

Little was free and easy on both sides, but even so we would advise the reader to follow his finger along the market report attached to the end of this story until it rests on the name of Bert Nishoff. Then move the finger south until it rests in the base-hit column, where the number five will be found directly opposite Mr. Nishoff's illustrious name. Bert was hitting everything that bore the slightest resemblance to a baseball.

BENGALS HAD TWO.
By the end of the third inning, Vernon had two runs. Griggs tripled for a Los Angeles run in the fourth, and Nishoff's double stood for the going tally in the fifth. A great spot by Fisher on Griggs hit prevented an avalanche of runs in this frame.

Babe Borton put the Tigers back at the head of the procession by driving a home run into the bleachers in the sixth. Secretary Lorenz, who has a blue print of the grounds, and all the measurements, estimated the ball struck on one of the 40-cent seats on the fly, and then bounced back into the arena. Nobody was on at the time, so there were no dust clouds to prevent a good view of Babe as he touched all the bases. This lead held only momentarily.

(Continued on Ninth Page.)

ATHLETES ARE GETTING READY.

Coach Call Hustling Labor on Pasadena Oval.

Olympic Games Tryouts are but Month Away.

Paddock and Kirksey Tuning up for Meeting.

With the Pacific Coast track and field tryouts for the Olympic games but a month away, Southern California athletes are buckling down to work in real earnest, and Coach Call of Throop is hustling along the labor on the Pasadena oval.

This is scheduled to be completed a couple of weeks before the meet in order that the winds who compete there on June 24 may get a line on the character of the terrain.

Meanwhile Charley Paddock is cranking out his mile and half at Howard Field, preparing himself for that acid test with Morris Kirksey of Stanford. The pair have met twice this year, and each time the Stanford flyer came out second. Both have stepped the century in 3:45, but Kirksey has been seeing the rear of Charley's pants regardless of time.

KEEPING BUSY.
Gene Schiller and Gwynn Wilson, the Trojan quarter milers, are keeping themselves busy and hope to run away with the gray in the 400-yard race. Hendrixson of California dashed the distance in 1:14.4, in the Pacific Coast conference meet, which equals Schiller's time this season. The battle between this pair at Pasadena should be great.

From Radlands comes word that Kirby and Young, the Baptist stars, were keeping in fine trim. Since the decathlon has been eliminated from the Coast programme because the final tryouts are to be held in June, both have stepped the century in 1:14.4, but Young has been working mostly on the hurdle events and the broad jump. The local committee is worried that Young was he to compete here in the ten-event stuff and then hop a train to go through the same thing ten days later.

The action by the government sanctioning the plan to use an American transport to convey the Olympic games athletes to Antwerp has removed a big obstacle. The next thing to do is to raise the necessary wherewithal to house and feed the United States athletes. Southern California's portion is \$35,000, of which the committee expects to raise a large part by sale of space in the programme and by admission at the gate. Bleachers to accommodate approximately 35,000 are being built at Tournament Park by Pasadena officials.

BIG AUTO RACES ARE SET FOR NEXT WEEK.

That Kings county is going to stage one of the real sporting events of the 1928 season, in the big automobile and motorcycle race meet planned for next Monday afternoon, May 31, on the one-mile speedway at the county fair grounds, near Hanford, is becoming more evident each day as plans and details are worked out for the program and entertainment features and as entries for the several speed events continue to come in.

Four automobile events are scheduled, a 1-mile try for Kings county track record, a pursuit race, 50-mile limit, a 15-mile race for Kings county cars, and the big event of the card, a 25-mile free-for-all. Fifteen pushing speed demons, piloted by California's fastest drivers, will be on the starting line for these events.

In addition to the auto races, two speedy motorcycle events are scheduled, a 10-mile and a 15-mile free-for-all.

MANAGER GRAHAM IS SUSPENDED.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 26.—Manager Charles Graham of the San Francisco club of the Pacific Coast Baseball League was suspended today for three days and fined \$50 by William H. McCarthy, president of the league, for protesting a ninth-inning decision of Umpire Eason in last Sunday morning's game between San Francisco and Portland. When O'Connell, San Francisco first baseman, slid home after making the circuit from first base he was called out. Graham's vigorous protest followed. The run would have meant victory for San Francisco.

MAJOR LEAGUE RESULTS.

WHITE SOX GET AN AWFUL LAMBASTING.

(BY A. P. NIGHT WIRE.)
PHILADELPHIA, May 26.—Philadelphia hammered Williams for eleven hits in four innings, easily defeating Chicago. Home runs by Perry and Dugan made the total eighteen in ten playing days at the local American League park.

LAUNCH CHALLENGER FOR AMERICA'S CUP.

(BY A. P. NIGHT WIRE.)
CITY ISLAND (N. Y.), May 26.—Sir Thomas Lipton's challenger for the America's cup was launched here at high tide tonight, at the yards of Robert Jacobs, where she has been since last November. The Green Hornet, bearing Sir Thomas Lipton's private signal, and the burgee of the Royal Ulster Yacht Club, hit the water at 7:15 p.m. As the boat first plunged since being altered her crew and the representatives of Sir Thomas sent up a cheer. They all were 15, the opinion that Shamrock IV is the most dangerous yacht that ever has come after America's cup.

DE PALMA WINS POLE POSITION.

Makes Fastest Spin in Trials at Indianapolis.

Second Honors are Grabbed by Joe Boyer.

Big Gasoline Derby is Slated for Monday.

(INDIANAPOLIS DISPATCH.)
INDIANAPOLIS (Ind.), May 26.—The first of the qualifying rounds of the cars entered in the 500-mile international sweepstakes race to be held at the Indianapolis Motor Speedway next Monday was held on the big brick oval today. Ralph De Palma in his French-made Ballot carried off the honors of the day by negotiating the necessary ten miles in six minutes and three seconds, which figures 99.45 miles per hour for the four laps.

By making the fastest time today De Palma wins the pole in the first group of three in the big race. Second honors went to Joe Boyer in his Frontenac, his average speed being 96.9 miles per hour and third position went to Louis Chevrolet in a Monro with an average of 94.3 miles per hour to his credit.

Only ten of the thirty-two cars entered in the big gasoline derby qualified today, a number of the drivers preferring to wait until their mounts are better tuned up. The other trials will be held Friday, but those who qualified today win their positions for the start of the race regardless of the time made by those who qualify Friday. The results:

1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
De Palma	Boyer	Chevrolet	Frontenac	Ballot	Monro	St. Louis	Cincinnati	Cleveland	Washington

Police detectives and officers from the department yesterday failed to establish the cause for the \$75,000 loss at the plant of the Willitta, Son & Green Company, early this morning. Following the fire, the second story of the building the police believed was the arson plot might have been the cause of the fire, but up to late this morning they had been unable to substantiate the theory. The plant is located at 831-823 Traction street between the building and James street. Most of the building is covered by insurance, but the second story is not.
